To Our Dealers

THIS book illustrates and describes the most complete line of fine writing instruments ever produced—the Eversharp pencil and its worthy “write-hand companion,” the Wahl Pen.

It is the ambition of The Wahl Company to manufacture a pen and a pencil to fill every writing need of every man, woman and child in the country. How well this ambition has been realized may best be seen by a careful study of these pages.

Eversharp, the most famous pencil in the world, has already come into the hands of fifteen million satisfied users—and its popularity is growing daily. The name Eversharp is the nation’s standard of pencil perfection.

Wahl Pen, Eversharp’s running mate, has found instant favor with the public, due to its beauty and mechanical excellence. Matching Eversharp in appearance and quality, this better pen is destined to undisputed leadership in its field.

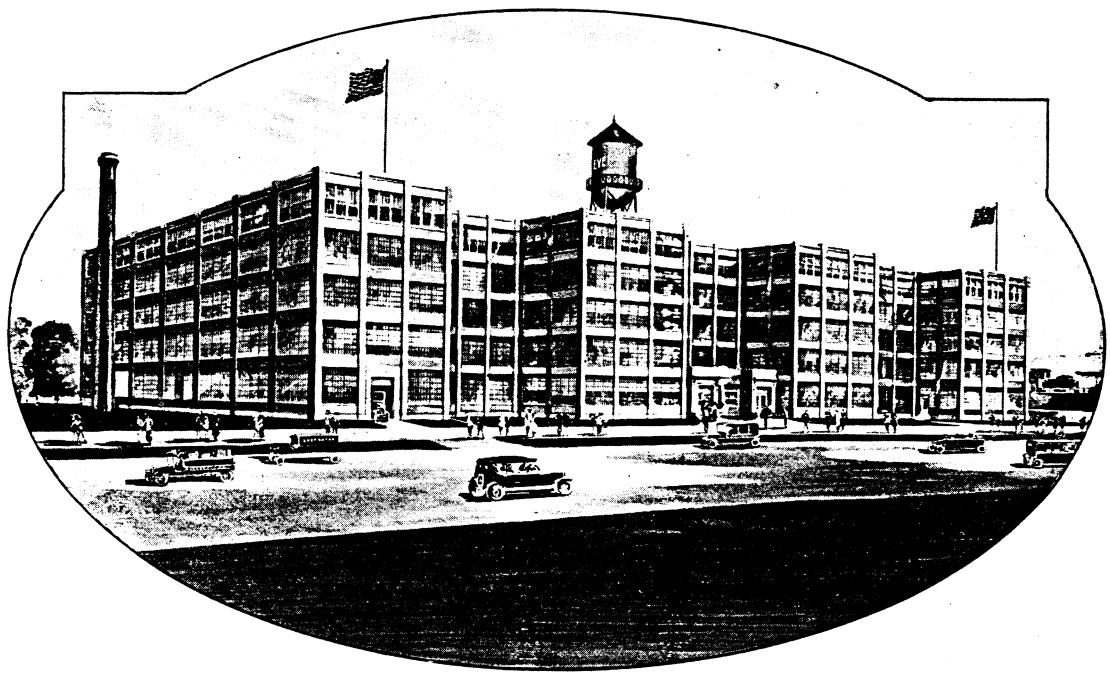

There is a satisfaction in making and in selling Wahl Products which everyone of our dealers may justly share. It is the satisfaction which comes of the knowledge of supplying the very best articles of their kind the market affords. Quality is built into every Wahl product in our factory. The best materials are carefully shaped by expert workmen into goods of the highest grade.

This year’s line is by far the most complete we have ever offered. There’s an Eversharp and a Wahl Pen for everybody, from the youngest school child to the busiest executive.

We wish to thank our dealer friends for the part they have played in the development of the Wahl line, and to assure each one of our heartiest co-operation and support in the future.

THE WAHL COMPANY

The Home of Eversharp Pencils and Wahl Pens

ABOVE is shown the main factory and home office of The Wahl Company, located at 1800 Roscoe Street, Chicago. It is a thoroughly modern five-story, fire-proof, daylight factory, with nearly seven acres of floor space.

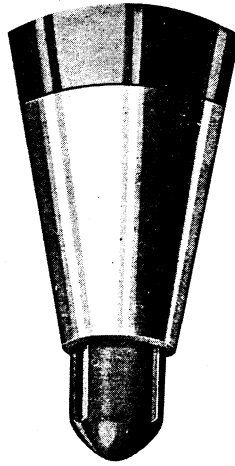

Here raw materials from the far corners of the world are transformed by skilled workmen and the finest and most accurate machines into the world's best writing tools—Eversharp pencils, Wahl Pens and Eversharp Leads.

The daily production capacity of this remarkable plant is 50,000 pencils, 5,000 pens and 1,000,000 pieces of lead. Great as this seems, quality is never sacrificed at the altar of speed, every Wahl product undergoing several rigorous and severe inspections before it is allowed to start on its way to the user.

Our friends are invited to visit this remarkable factory while in Chicago.

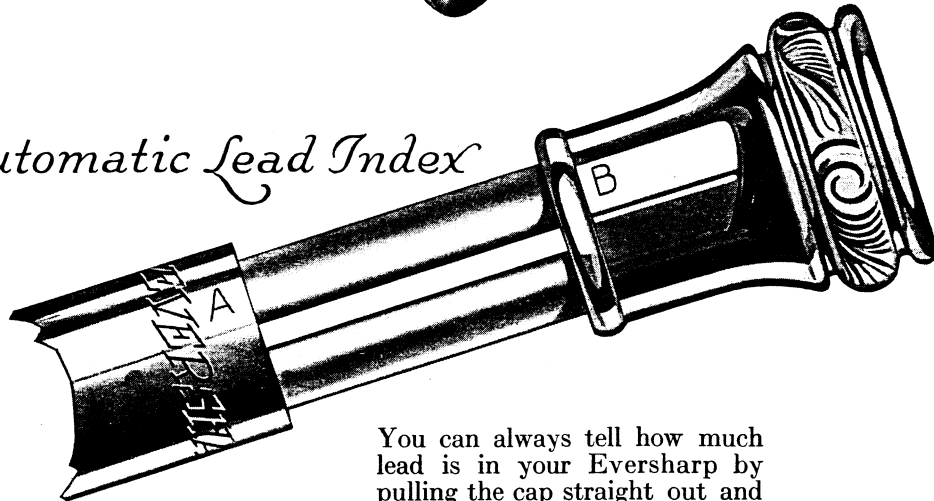

Why Eversharp Is Supreme

Exclusive Rifled Tip

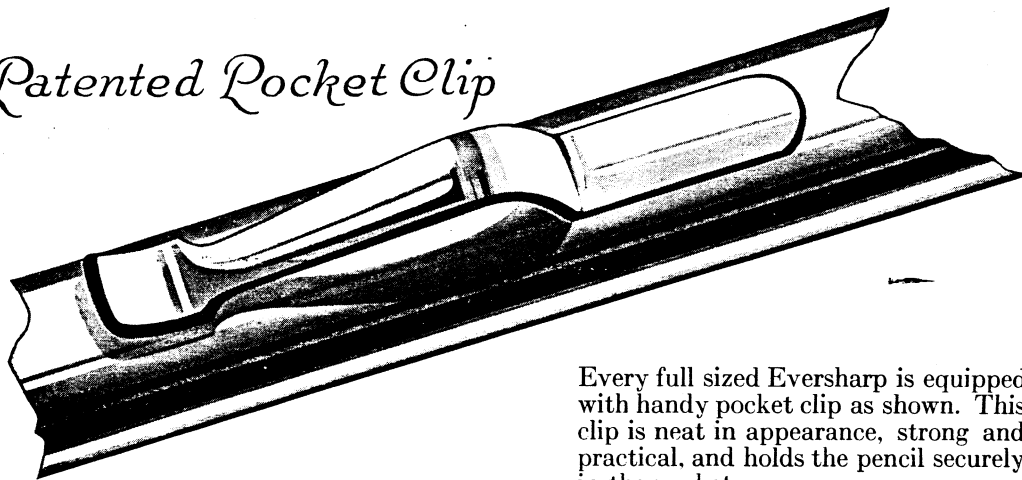

This accurately machined steel tip holds the lead firmly, cutting tiny grooves in the lead as it passes through the tiny teeth (rifling) on the inside of the tip. You can identify the genuine Eversharp by the grooves on the lead. They are insurance against slipping or turning of the lead.

Automatic Lead Index

You can always tell how much lead is in your Eversharp by pulling the cap straight out and noting the distance between A and B, as shown above. This distance equals the length of lead in barrel.

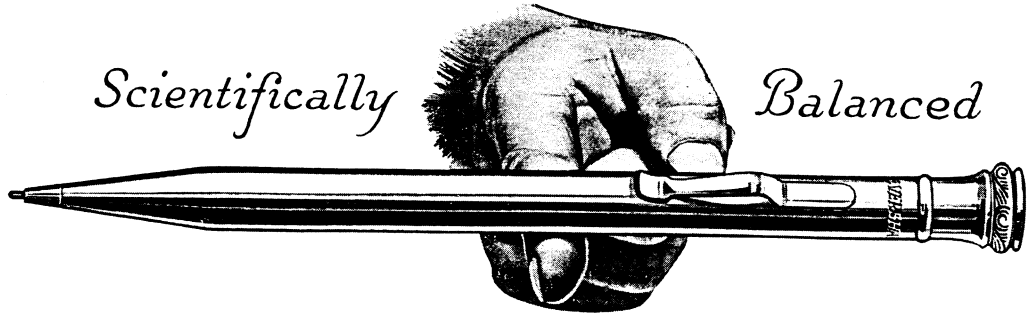

Patented Rocket Clip

Every full sized Eversharp is equipped with handy pocket clip as shown. This clip is neat in appearance, strong and practical, and holds the pencil securely in the pocket.

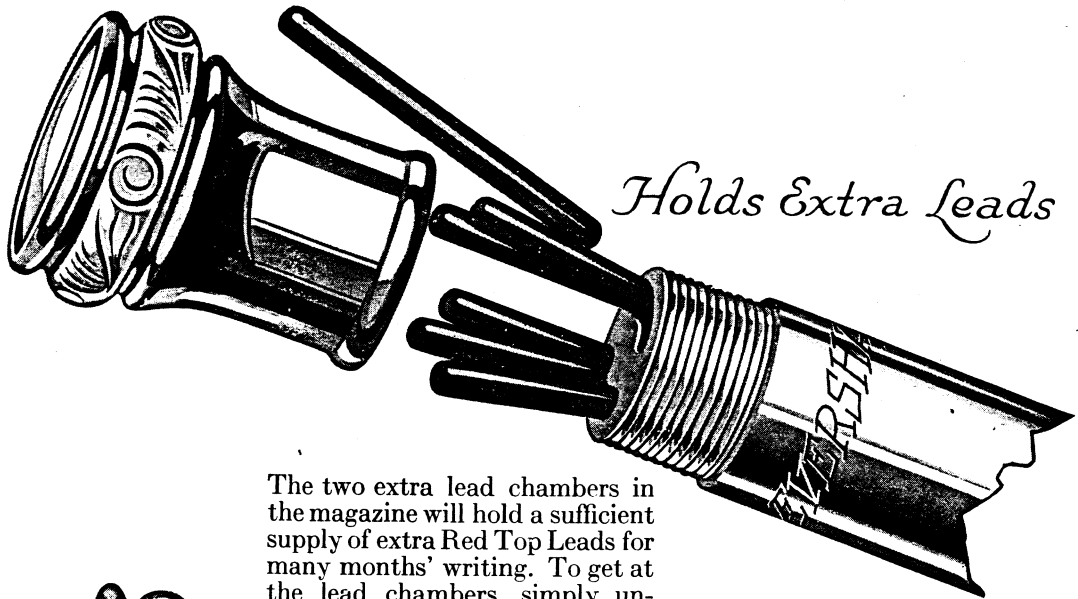

Why Eversharp Is Supreme—*Continued*

Scientifically

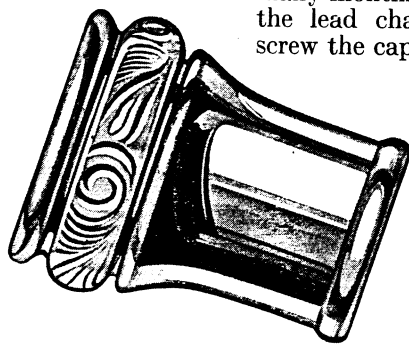

Balanced

Eversharp has just the proper balance, weight and "feel" to insure easy writing qualities without tiring the hand.

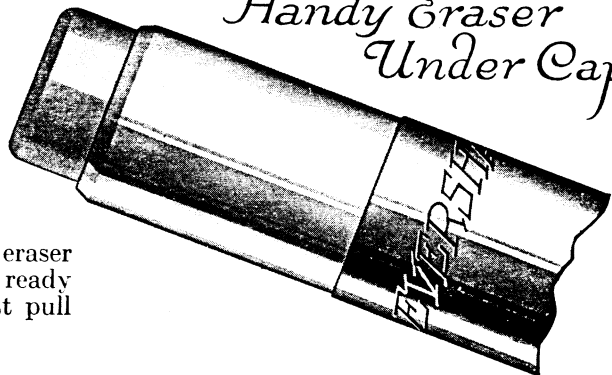

Holds Extra Leads

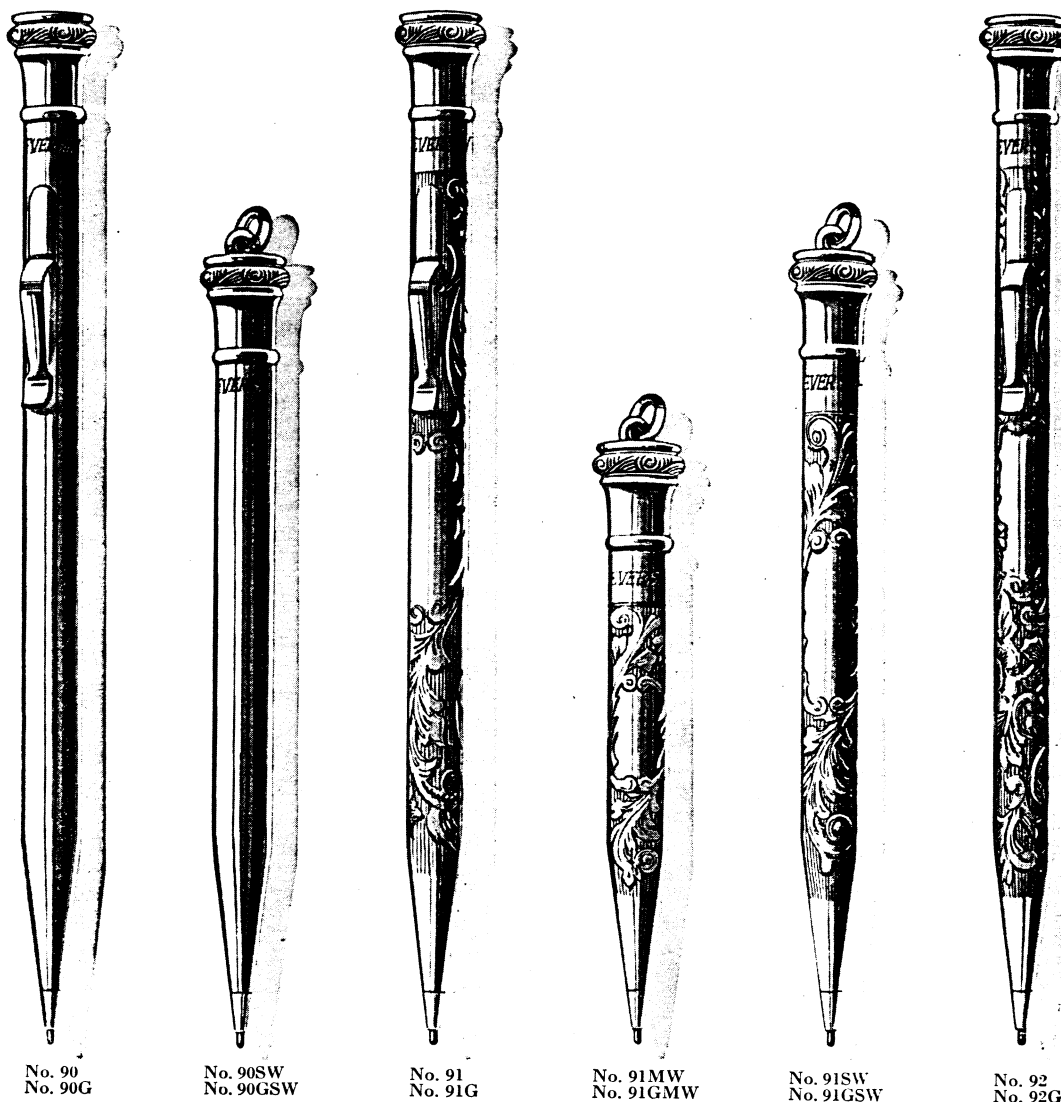

The two extra lead chambers in the magazine will hold a sufficient supply of extra Red Top Leads for many months' writing. To get at the lead chambers, simply unscrew the cap section.

*Handy Eraser
Under Cap*

There is a high grade, practical eraser under every Eversharp cap. It is ready for use at an instant's notice. Just pull the cap straight off.

“The Greatest Invention Since Eversharp”

THAT is what people say of the fine new Wahl Pen with the all-metal barrel that actually holds more ink than other pens of its type.

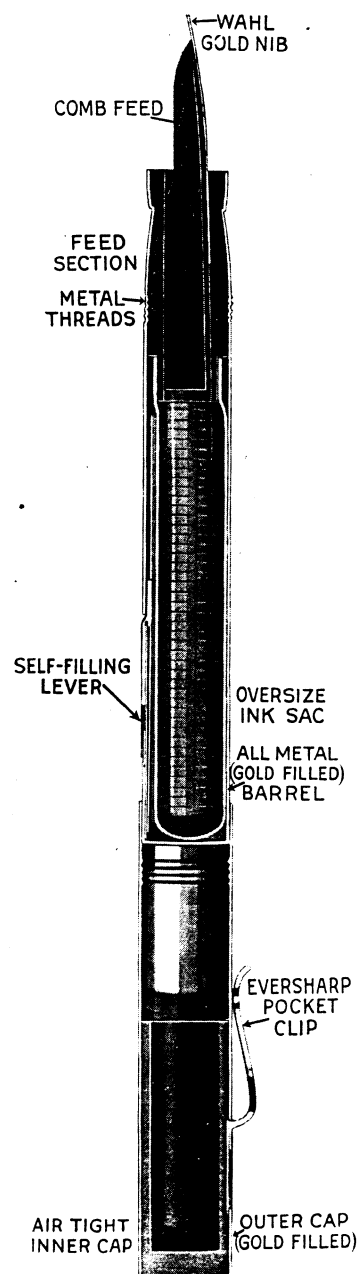

In building this fine writing instrument we have done away with the hard rubber inner walls—the barrel of the new Wahl Pen is entirely of metal. This permits the use of a very large ink sac.

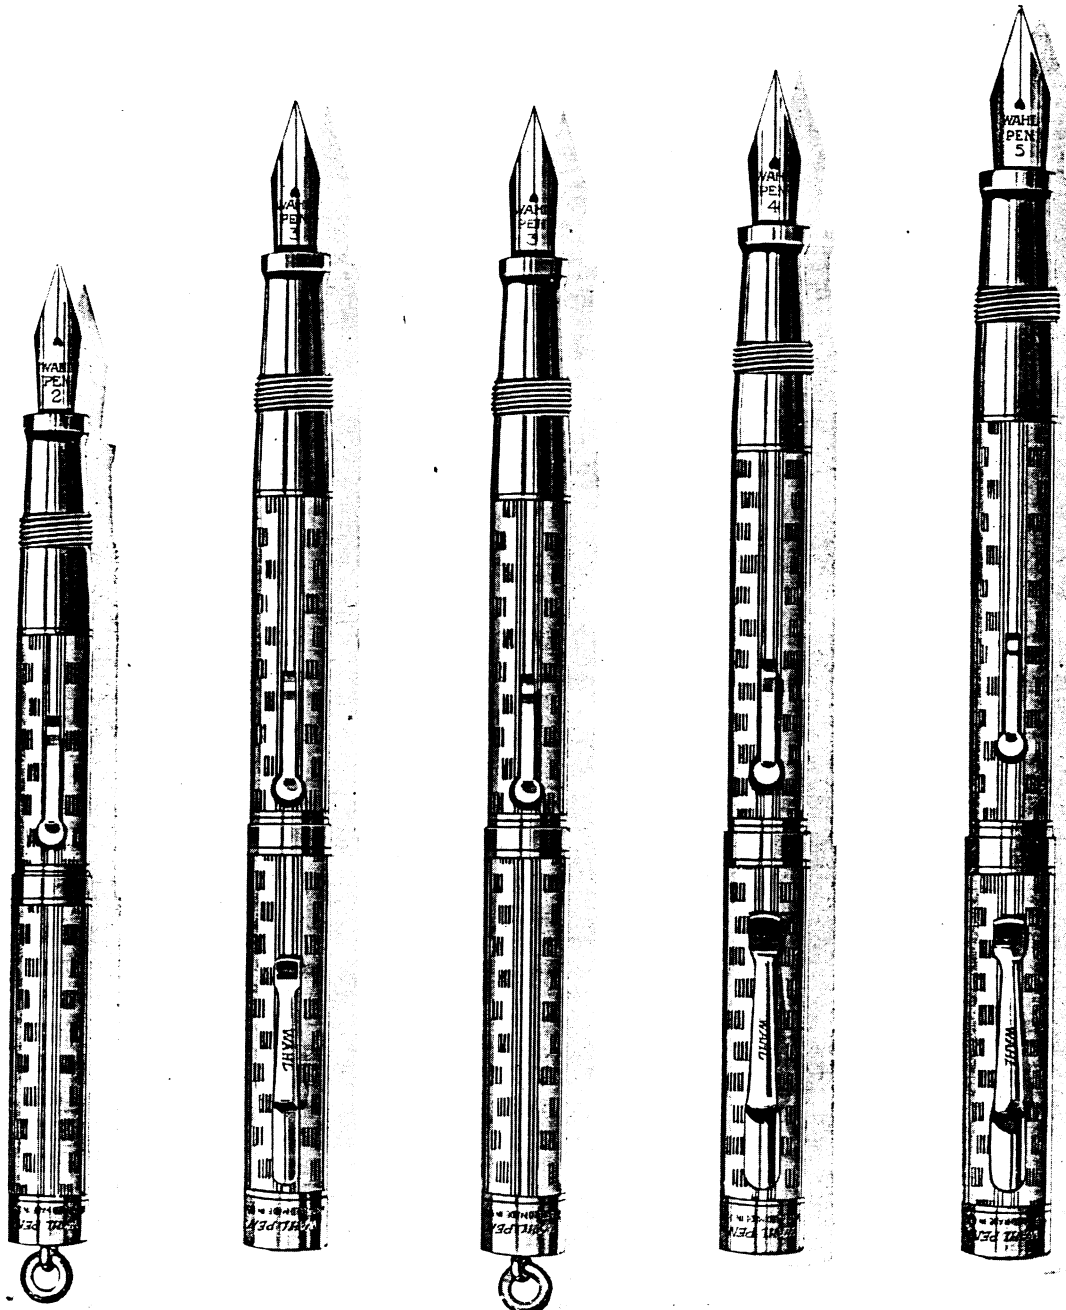

Notice the sectional view at the right. See the sturdy, simple construction of the pen. The Wahl Pen not only looks well, but writes smoothly and easily at all times. Its writing qualities are assured by Wahl standards of material and workmanship.

The Wahl Pen is made in four sizes and in six standard Eversharp designs—every pen matches one of the millions of Eversharps now in use. It matches Eversharp in beauty and mechanical perfection, as well as design.

The following six pages illustrate the many designs and sizes of the new Wahl Pen. There are ninety numbers from which to choose. The many styles and sizes of nibs with which these pens can be equipped offer an almost unlimited selection.

Every Wahl Pen is guaranteed to give perfect satisfaction under all writing conditions.

Wahl Pen—The Writing Tool of Quality

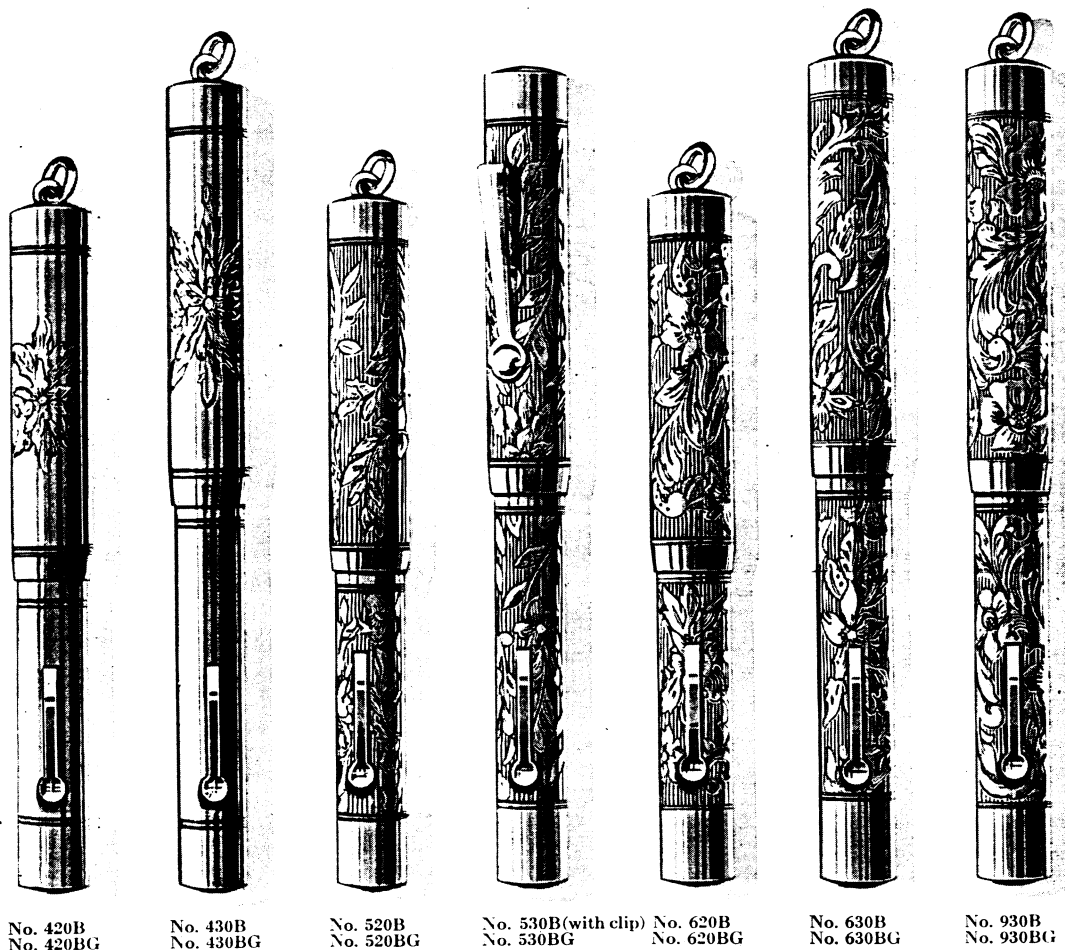

IT HAS required years of experimenting and study to produce Wahl Pen, "the pen with your personality." Into every Wahl Pen, whether it be the rubber, mounted or metal-barrel model, is built a quality that has resulted from the development of the most modern methods of fountain pen construction.

Mechanically, Wahl Pen is a true marvel of perfection. Each nib is of generous size, high quality and skilled workmanship, and is tipped with the finest grade of imported iridium (the hardest metal known). When you write, this hard, smooth, highly polished iridium tip is all that touches the paper—and it glides along with perfect ease and smoothness, without scratching or sputtering.

The Wahl comb feed, that holds ink as a comb holds water, controls the ink flow at all writing speeds. Wahl Pen writes the moment the point touches the paper; no shaking is necessary.

The air-tight chamber in the cap of each pen prevents "sweating" or leaking in the pocket, and also insures a point that is constantly moist and ready for instant writing.

There's a Wahl Pen for every hand and every purse. From the many scores of models and the wide assortment of nib styles, everyone can select the particular Wahl Pen that suits his or her style of writing.

Wahl Combination Writing Sets

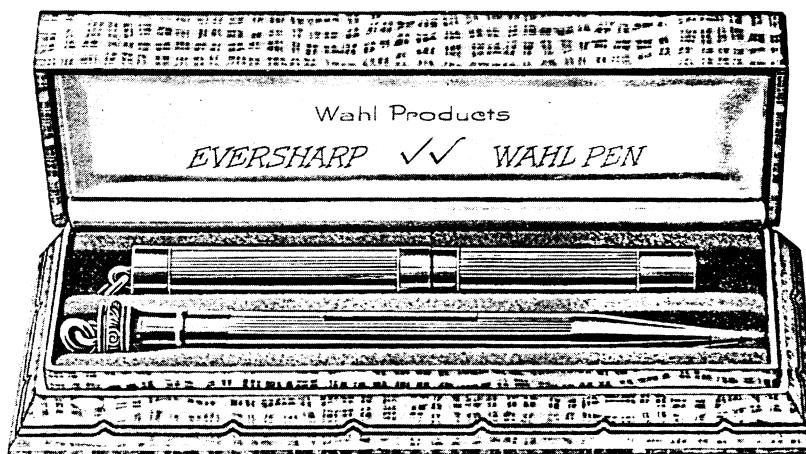

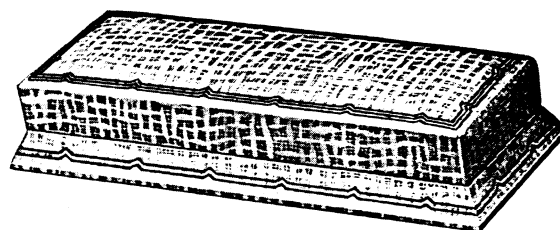

Everyone should have a Wahl combination writing set—an Eversharp pencil and Wahl Pen engraved in the same pattern. One of these sets is a thoroughly practical and suitable gift for any person or any occasion.

Wahl writing sets listing at \$8.00 and up are packed and shipped in one of the fancy gift boxes shown on this and the following page.

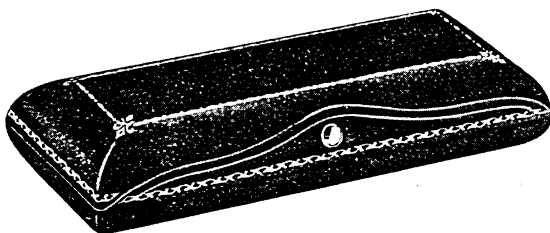

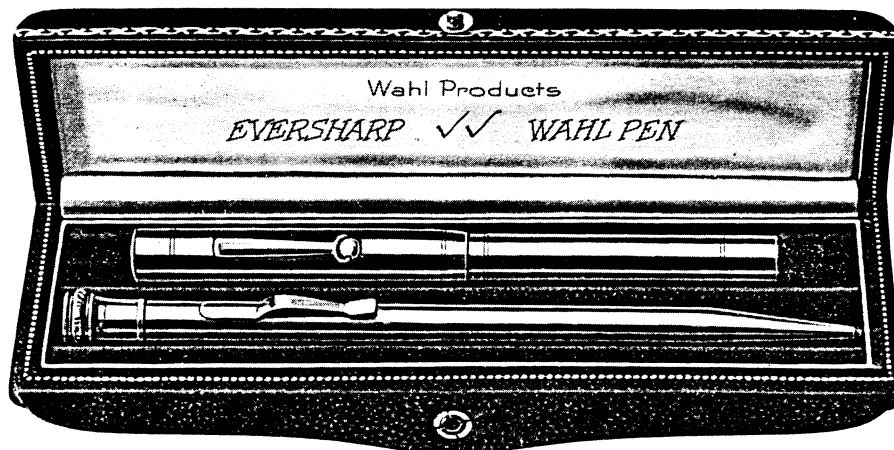

All men's sets (except solid gold) come encased in a handsome satin-and-velvet lined gift box as shown above. The man's set shown comprises a No. 14 Eversharp and No. 656A Wahl Pen.

The small illustration at the right center shows a ladies' size combination set gift box, closed. Ladies' sets (except solid gold) come in a pretty and delicate satin-and-velvet lined box as shown at the right. The set pictured consists of Eversharp No. 10SW and Wahl Pen No. 323AW.

The wide variety of styles, sizes and designs of pens and pencils listed in this catalog present an almost limitless selection of combination writing sets.

Wahl Combination Writing Sets

The finest gift of all—a solid gold Eversharp and a solid gold Wahl Pen to match! Whoever gives a solid gold Wahl writing set may take a just pride in the knowledge that he is giving the very finest gift of its kind.

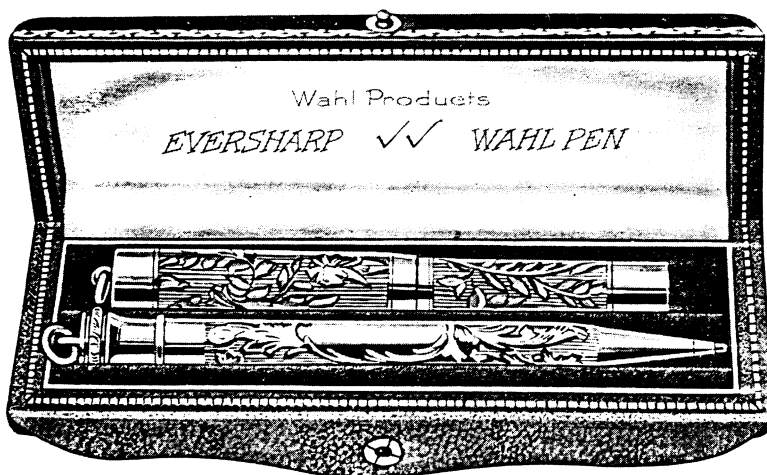

Solid gold Wahl writing sets are encased in the superb genuine leather gift boxes, satin-and-velvet lined. These are the finest gift boxes we have ever used—they are the last word in richness and beauty.

Above is shown a man's solid gold set—Eversharp No. 90 and Wahl Pen No. 302B—in one of these fine gift cases.

The small illustration at the left center shows a Wahl leather gift box, closed. Beauty and dignity are combined to make this box one of distinction.

At the left is shown the ladies' size leather gift box, containing a solid gold Eversharp No. 91SW and a solid gold Wahl Pen No. 620B.

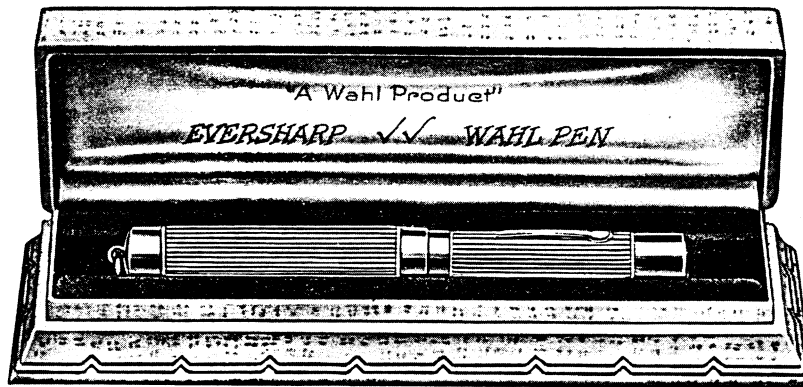

A solid gold Wahl writing set is ideal for an individual or group gift. This catalog offers a wide selection.

How Wahl Pens are Packed

Black rubber and banded Wahl Pens, and all-metal barrel pens of *chased design*

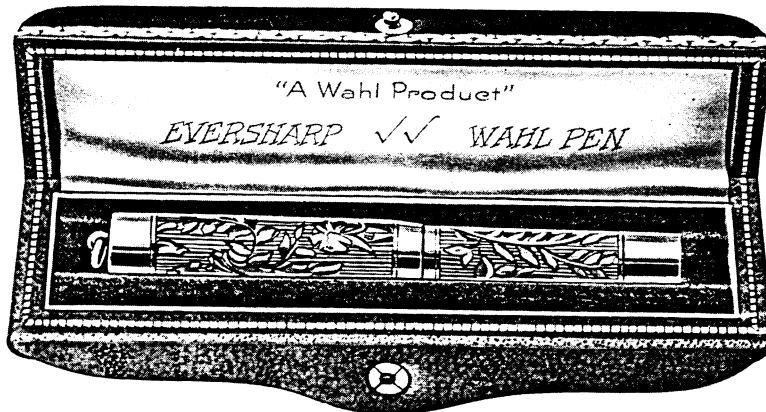

only (page 29) are packed in one of the neat white cardboard boxes shown above at the right.

Each all-metal barrel pen of engine turned design and each sterling silver hand engraved mounted pen is packed and shipped in an attractive gift

box as shown above. These boxes are lined with satin and velvet and are very handsome and dainty.

Solid gold mounted Wahl Pens are packed in beautiful, genuine leather-covered gift cases, lined with satin and velvet. The illustration at the right does not do justice to the beauty of this fine case.

How Eversharps Are Packed

All Eversharps are neatly packed and shipped in various gift boxes or containers, the style of container depending upon the cost of the pencil.

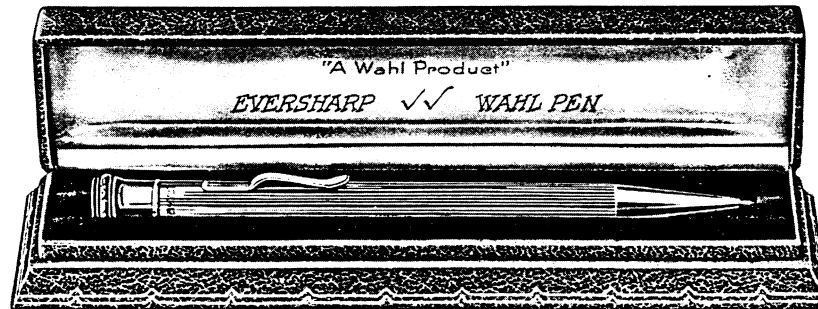

The enameled numbers—the “151” line—are packed one dozen (of the same

color) on a folding counter display card. Dozens will not be broken.

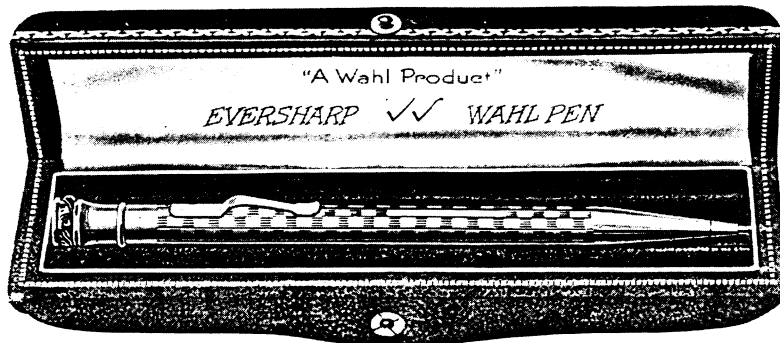

Eversharp checking and executive pencils are packed in individual brown cardboard boxes.

All pencils listing at \$1.00 to \$3.50 are packed in one of the neat white cardboard boxes shown above.

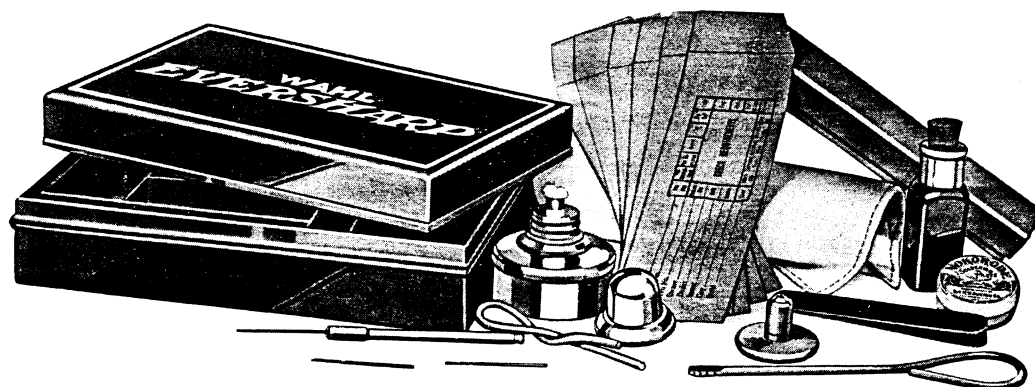

Every pencil listing at \$4.00 and up (excepting solid gold numbers) is packed and shipped in one of the handsome and attractive gift boxes shown above at the right. These boxes are lined with velvet and satin and present a fine appearance.

All solid gold Eversharps come packed in genuine leather-covered satin-

and-velvet lined gift cases as shown at the left. These cases are magnificent indeed—the finest we have ever furnished. A solid gold Eversharp in one of these fine cases is a gift anyone may be proud to give or receive.
